

MAKING VISIONS WORK.

Co-Creating Digital Businesses, Digital Experiences & Products

MILESTONE PREVIEW

Quan Phan | 24/08/2025

Agenda

1. Top-down approach, Database Analysis & Design
2. Critical Thinking & Writing SQL Query
3. Writing unit test & Learn Clean Code Principle
4. Time Management & Outdoor assignment
5. Summary

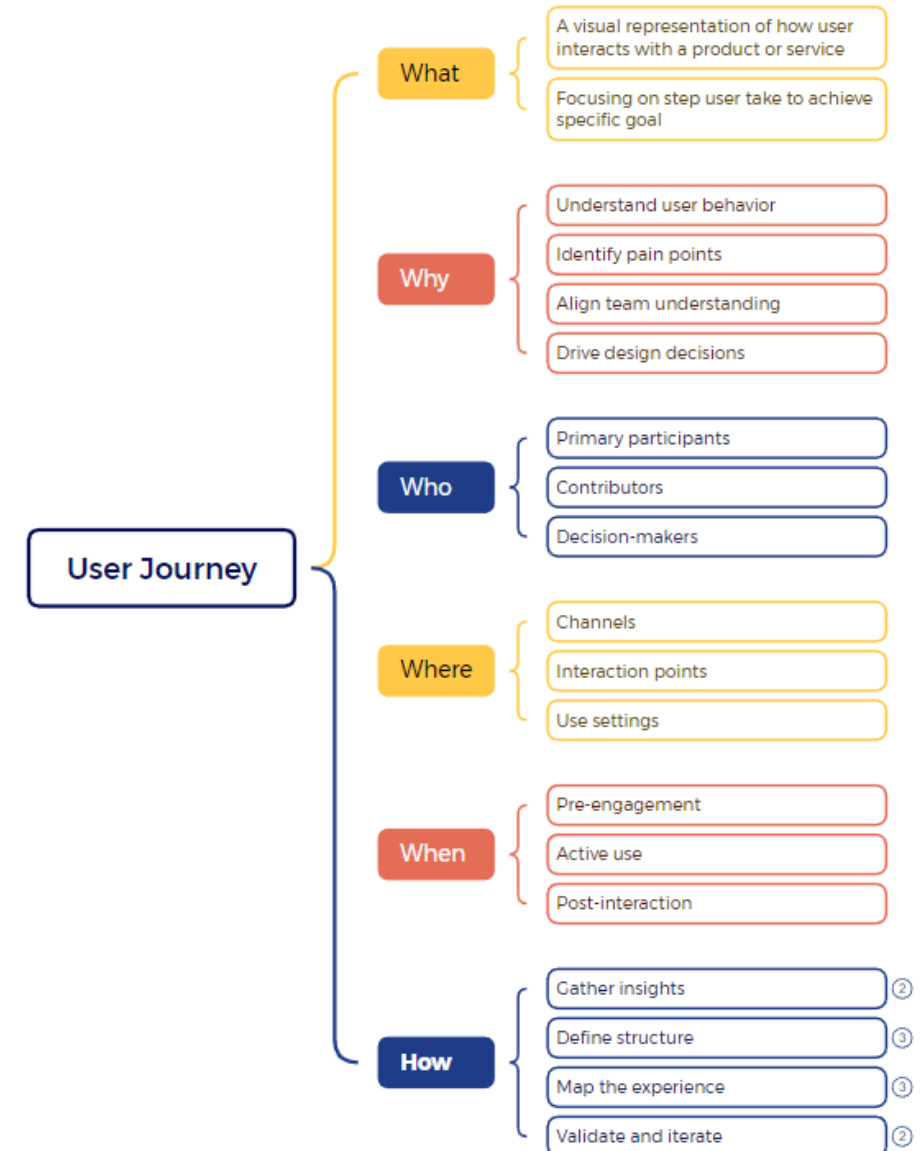

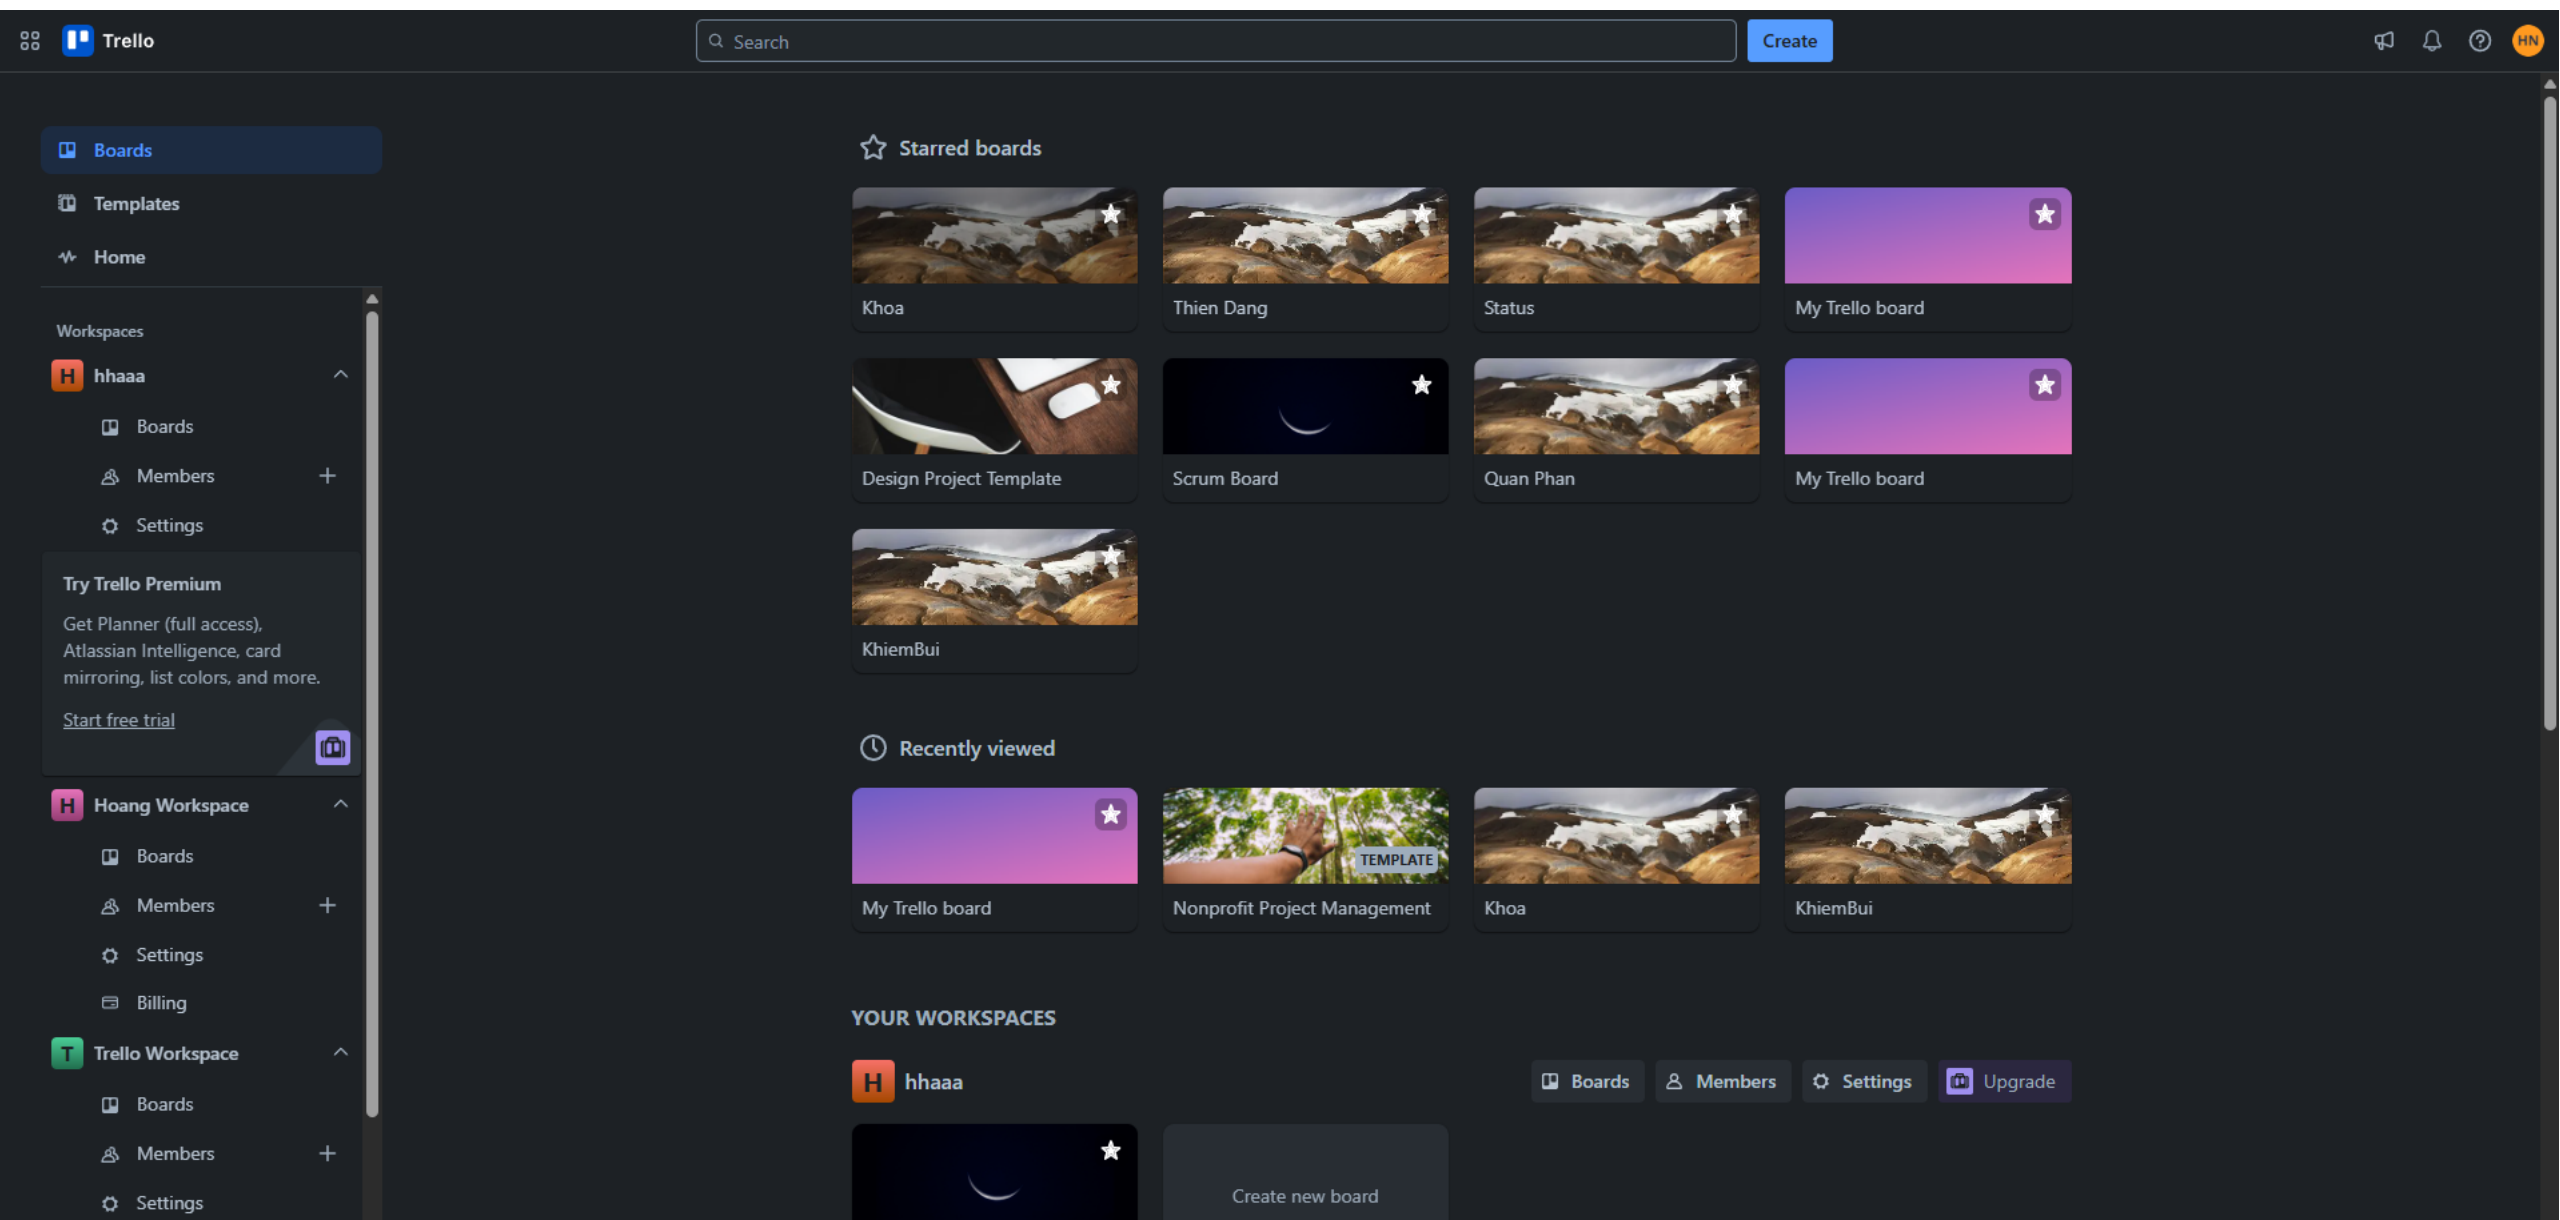

MEILESTONE 1: TOP-DOWN APPROACH, DATABASE ANALYSIS & DESIGN

LEARN TOP-DOWN APPROACH

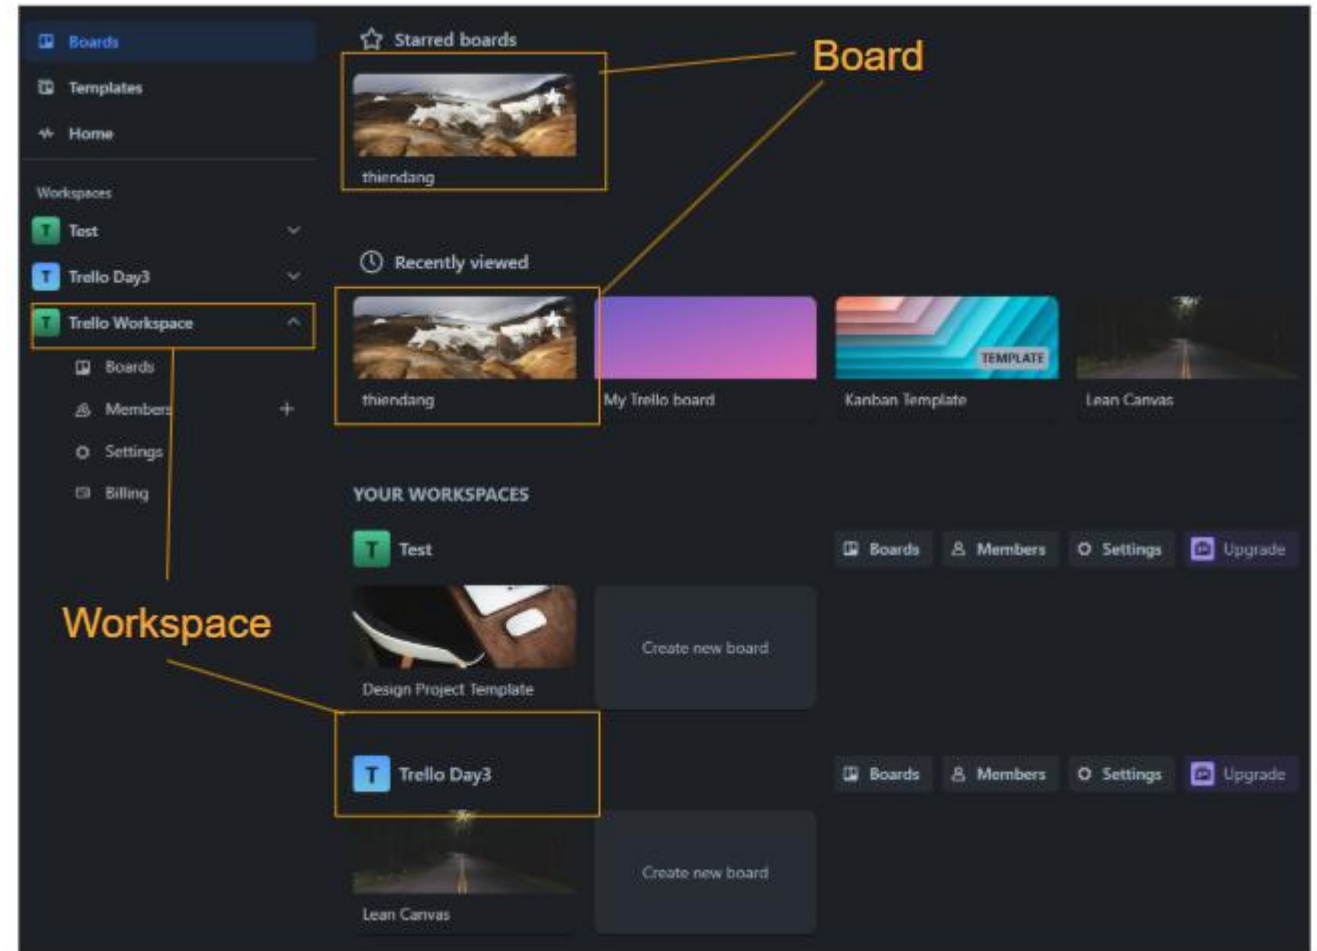

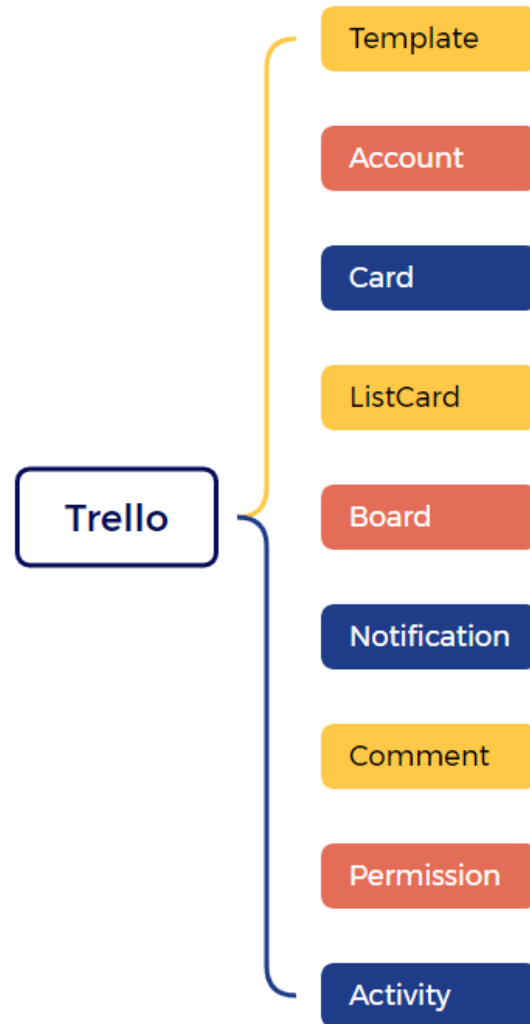

- Learn how to use mind map to learn new concept by 5W 1H
- Learn how to break a big concept to many smaller concepts

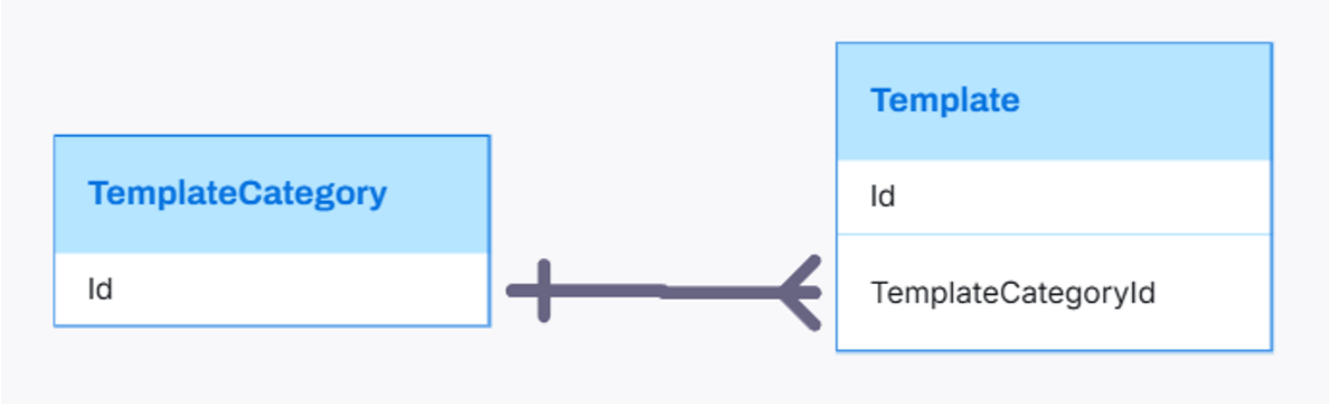

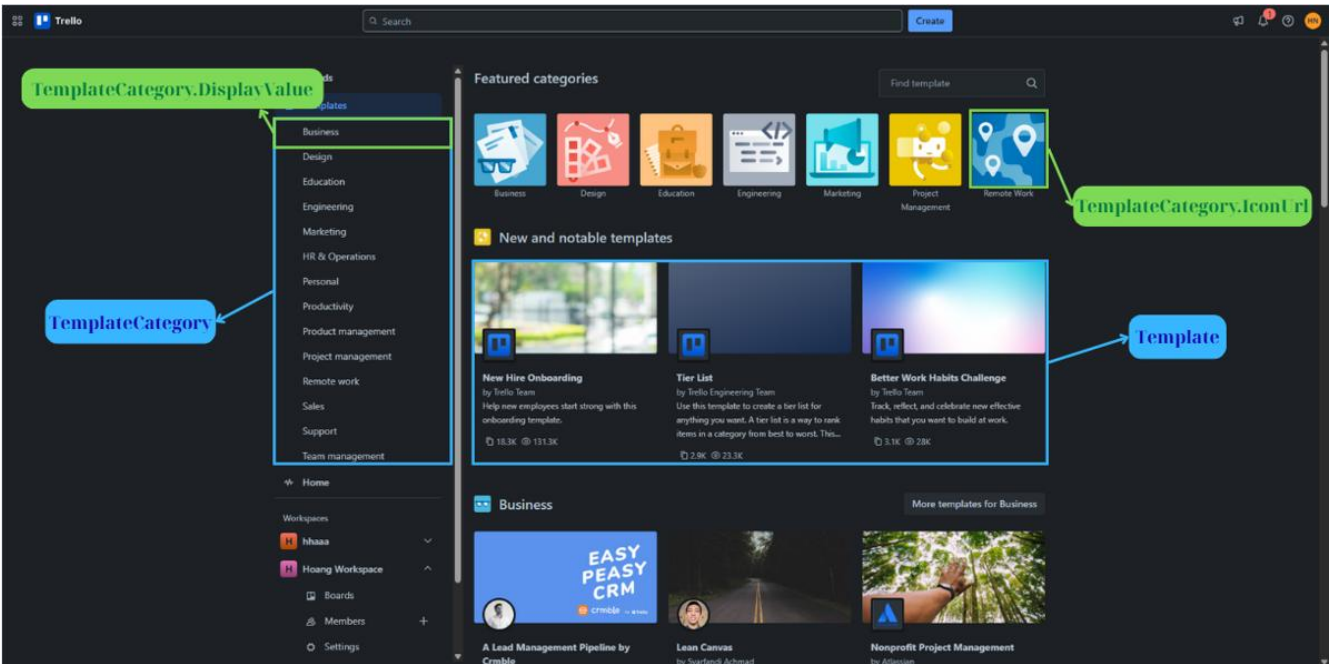

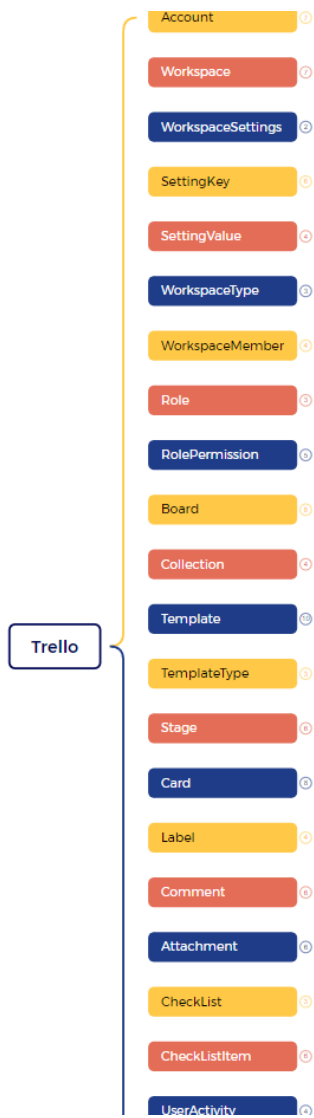

DESIGN DATABASE FOR TRELLO

FIRST VERSION OF LIST ENTITY FOR TRELLO

VERSION AFTER RECEIVING FEEDBACK

MLESTONE 2: Learn Critical Thinking & Write SQL Query

Critical Thinking

- **Ask questions:** Always ask "Why?", "How?", "What's the evidence?".
- **Seek diverse information:** Don't rely on a single source.
- **Challenge your own beliefs:** Be willing to change your mind if presented with convincing evidence.
- **Understand fallacies and biases:** Recognize them in others and in yourself.
- **Focus on data and evidence:** Don't let emotions or prejudices dictate your judgment.

WRITE SQL QUERY - BEFORE AND AFTER RECEIVING FEEDBACK

-- Query Starred Board By User

```
select b.Id,b.BoardName,b.BackgroundColor
from UserStarredBoard usb
join Board b on b.Id=usb.BoardId
where usb.UserId=1
order by usb.CreatedAt desc
```

--Get User Infor by Email

```
select usr.FullName,usr.PictureUrl,usr.Email
from Users usr
where usr.Email=''
```

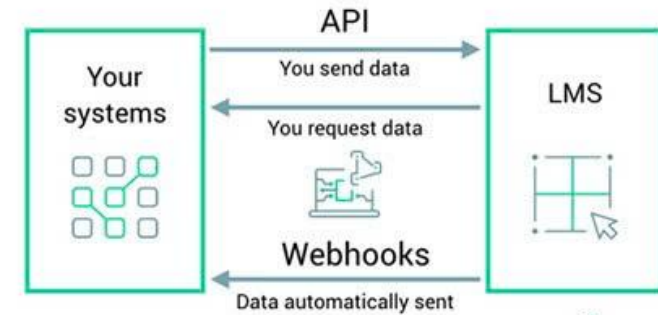

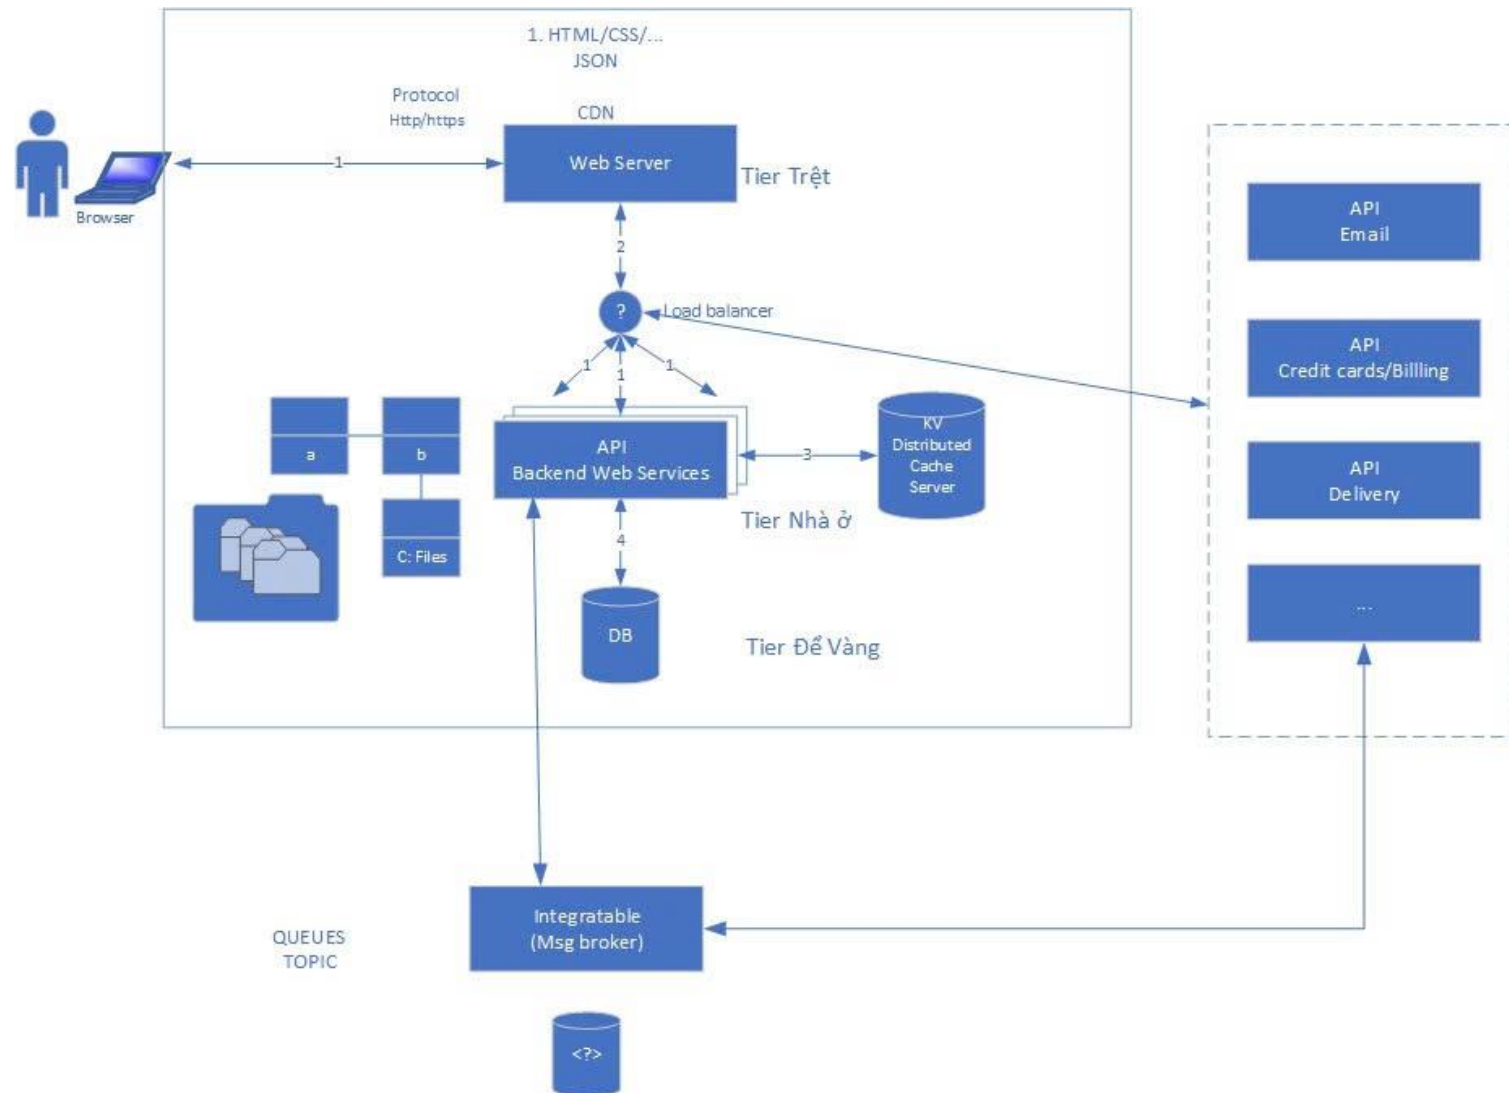

-- Query Starred Board By User

```
SELECT
    b.Id,
    b.BoardName,
    b.BackgroundColor
FROM
    UserStarredBoard usb
    JOIN Board b ON b.Id=usb.BoardId
WHERE usb.UserId=1
ORDER BY usb.CreatedAt DESC
```

--Get User Infor by Email

```
SELECT
    usr.FullName,
    usr.PictureUrl,
    usr.Email
FROM
    Users usr
WHERE
    usr.Email = ''
```

LEARN THREE-TIER ARCHITECTURE

MAILESTONE 3: Writing Unit Test & Learn Clean Code Principle

WRITING UNIT TEST – LEARN CLEAN CODE

- At first: just write code to run, without focusing on **performance** or **readability** -> write from scratch for 3 time
- Later: after learning **SOLID principles** and **design patterns** → care more about **performance, maintainability, and readability**

refactoring all service and repository

 phmquan committed last week · ✓ 1 / 1

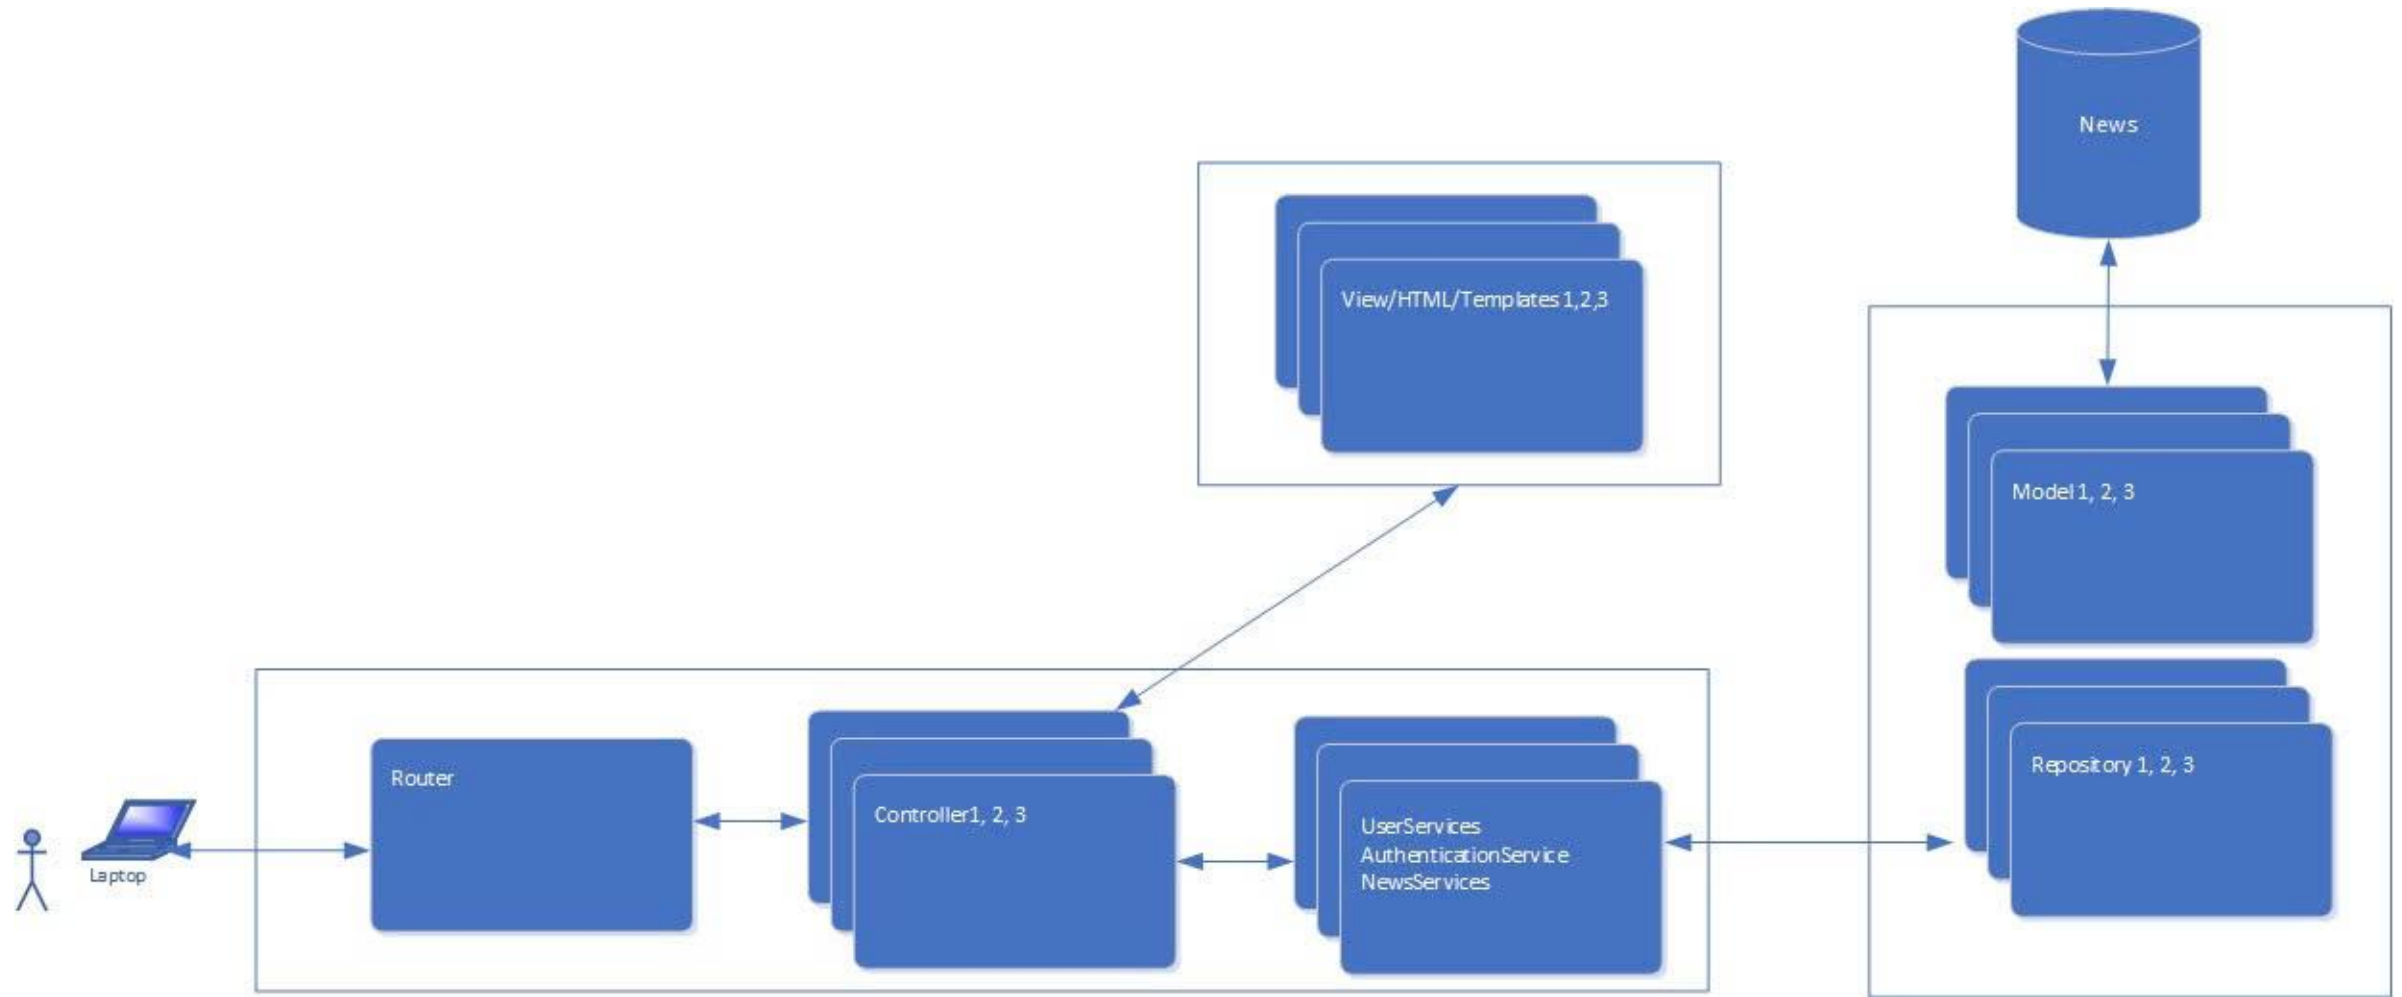

refactoring UnitTest project and add customDI project

 phmquan committed last week · ✓ 1 / 1

refactoring project

 phmquan committed last week · ✓ 1 / 1

LEARN MVC MODEL

MEILESTONE 4: OUTDOOR ASSIGNMENT & LEARN TIME MANAGEMENT

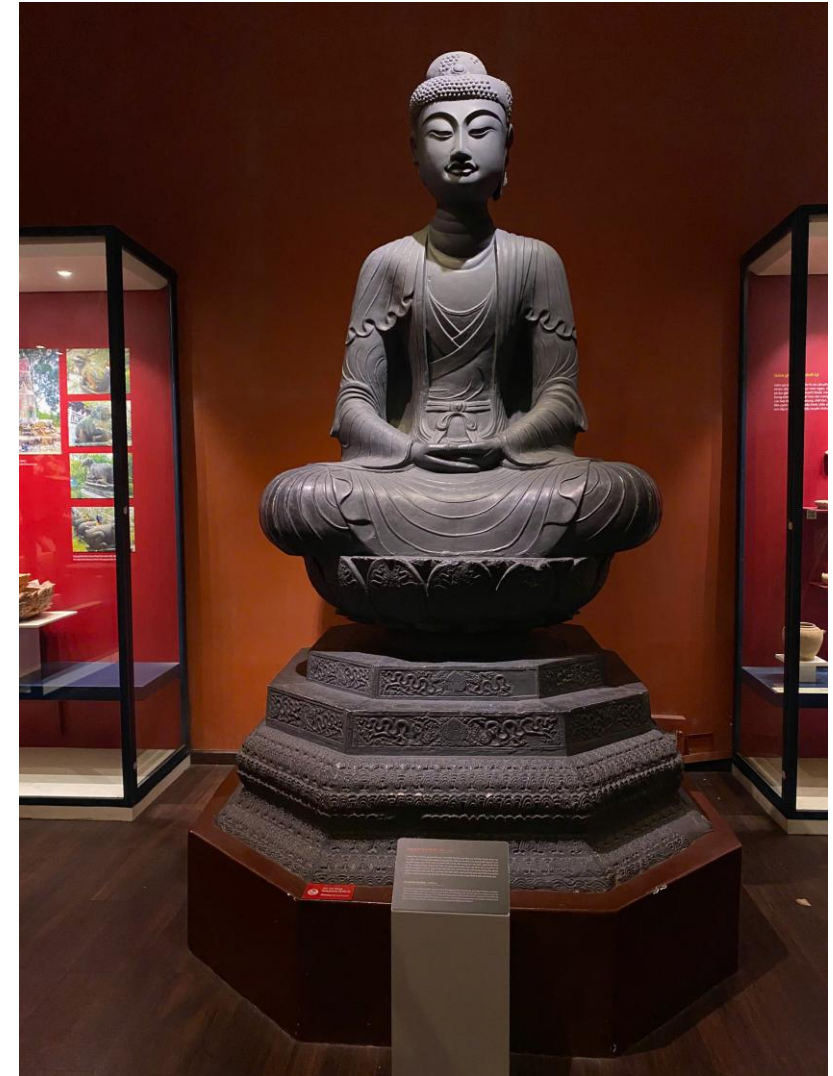

LEARN TIME MANAGEMENT

	Urgent	Not Urgent
Important	<u>Quadrant I</u> • Crisis • Pressing problems • Deadline driven projects	<u>Quadrant II</u> • Relationship building • Finding new opportunities • Long-term planning • Preventive activities • Personal growth • Recreation
Not Important	<u>Quadrant III</u> • Interruptions • Emails, calls, meetings • Popular activities • Proximate, pressing matters	<u>Quadrant IV</u> • Trivia, busy work • Time wasters • Some calls and emails • Pleasant activities

TALKING WITH FOREIGNER

MAKE PRESENTATION ABOUT VIETNAM HISTORY AND CULTURE

A close-up photograph of a light-colored wooden block with the word "SUMMARY" printed in bold, black, sans-serif capital letters. The block is part of a larger arrangement of similar blocks, with some other blocks visible in the background and foreground, creating a sense of depth. The lighting is soft and even.

SUMMARY

SUMMARY

- Learn from feedback and solving problem
- Learn both technical and soft skills
- Better everyday by daily progress

 phmquan	Merge pull request #67 from phmquan/dev3	95ca284 · yesterday	 153 Commits
 SQL_Query	add TestTemplate and test Template Category	last week	
 Unit_Test	Implement custom MVC Framework	yesterday	
 simulate_sql_query/src	update SQL Query Pivot Card CustomField	2 weeks ago	
 README.md	Create README.md	last month
